SUMMER CAMP

TRAMPOLINE AND TUMBLE SPECIALTY CAMP

SUMMER 2017

Dear Sun Country **Trampoline and Tumble Camp** Participants and Parents,

Thank you for signing up for the Sun Country Trampoline and Tumble Specialty Camp!

Your child will learn the safe and proper way to perform new skills on several different types of trampoline and tumbling surfaces. We will evaluate your child's skill level on the first day, place them in groups that are age and skill level appropriate, and progress from there. Our hope is that your child will finish the week with a brand-new set of Trampoline and Tumbling routines!

Sun Country is proud to have the best equipment which includes both in-ground and above ground trampolines, Eurotramp double mini trampoline, a fiberglass rod power tumbling strip, several spring floors, tumble tracks, spotting belts, and foam pits. Each of our campers will participate in rotations on all this equipment, plus learn about strength and flexibility, and enjoy snack and art time. They will even learn more about the competitive aspect of the sport through videos of elite athletes!

Please have your child in appropriate attire each morning.

Girls – leotard or athletic shorts and a fitted t-shirt, and socks.

Boys – athletic shorts, tight fitting shirt, and socks.

All long hair must be pulled back and no jewelry can be worn.

On Friday, your new trained tramp and tumbler will have an opportunity to perform their new skills in a small show for families before receiving their awards for participating!

We are looking forward to a bouncing, rolling and flipping fun week!

Joel Thomas

Department Leader

Trampoline and Tumble Team
